

# Geo Vidal

## Modern Artist

Geo Vidal is an artist who works mainly with painting. By applying a poetic and often metaphorical language, she wants to amplify the astonishment of the beholder.

### BIO

Geo Vidal lives and works in Munich and describes herself as a drawing painter. Painting and drawing are equally juxtaposed in her work, as well as figuration and abstraction. The artist does not care about a realistic depiction of nature. Rather, she wants to recognize and capture the soul of things, people and animals with her expressive drawings and paintings. Very personal feelings and perspectives should manifest on paper or canvas, implemented through a spontaneous, impulsive painting process. The artist works preferably with oil paints, but also with acrylics and various chalks and pens as well as with printing techniques.

---
